DORADO

Dorado

“The EPITOME of a 5.5 mtr family cabin boat”

This best selling, hugely popular boat features superior quality in manufacturing materials, presentation and finish. The roomy cabin, spacious cockpit and layout is designed for usability and versatility while offering style and comfort for all.

What they said

NZ Propeller Magazine “I give it my personal stamp of approval for handling and ride”.

Boating NZ “The only thing I can fault with the Huntzman was that I had it for just one day”.

NZ Herald “The finish of the boats is outstanding”.

The hull is designed to get on the plane effortlessly and perform efficiently and economically. The dry soft ride compliments the excellent handling characteristics of the hull, that can be relied on to get you home comfortably and safely, even when caught in the worst of conditions.
